Professional Objective

I aim to excel in the technology sector, not only through technical expertise but also through leadership and innovation. Committed to continuous learning, I refine my skills daily to become a reference in the field.

Education

- **Bachelor in Computer Science** – Instituto Mauá de Tecnologia
  2025 – Expected Graduation: 2028 – Morning period
- **High School Diploma** – Escola Villare Global Education (Cognita Group)

Hard Skills / Technical Skills

- Java, Python, HTML, CSS, JavaScript, SQL

- Microsoft Office Suite (Word, Excel, PowerPoint)

- Git, Canva, Photoshop, Premiere Pro

- Full-Stack Development (Front-end & Back-end)

Soft Skills

- **Leadership:** Easily takes charge of projects, ensuring organization and efficiency

- **Teamwork:** Collaborates creatively and proactively to solve challenges

- **Communication:** Highly effective in exchanging ideas and facilitating strategic decision-making

---

Languages

- English – Fluent (Cambridge level C1 certificate)

- Portuguese – Native

- Spanish – Fluent

Certificates

- Check my certificates in my [LinkedIn profile](#)
- **IBM** Web Development Fundamentals
- **Cambridge English** Certificate in Advanced English

Projects / Personal Projects

Portal Interno DevCommunity – [GitHub](#)

- The Internal Portal of the DevCommunity entity at Mauá. I am one of the back-end developers that add features (like strikes) and fix bugs

Portfolio – [GitHub](#)

- Here is a link for my portfolio, featuring my most important projects

DevBank Front-End – [GitHub](#)

- Front-end web application for banking system, integrating interactive UI with back-end services

DevBank Back-End – [GitHub](#)

- Back-end implementation with Python, managing banking operations and transactions with an API

Rokuzen Project (In Development) – [GitHub](#)

- Front-end project still under development, showcasing advanced JS, CSS and HTML integration

Millionaire Trivia Game – [GitHub](#)

- Python game using Pygame, organized in modular OOP structure with interactive questions and game logic

Personal Summary

Proactive student, passionate about technology, committed to continuous learning, and skilled in both technical and leadership roles. Always seeking to apply knowledge in **practical projects**, work in teams, learn fast, and make a real impact.

"Stay hungry, stay foolish."
